It is, or should be, the highest aim of every merchant to please his customers; and that the wide awake drug firm of Meyers & Eschleman, Sterling, Ill., is doing so, is proven by the following, from Mr. Eschleman: "In my sixteen years' experience in the drug business I have never seen or sold, or tried a medicine that gave as good satisfaction as Chamberlain's Colic, Cholera and Diarrhoea Remedy. Sold by Will Lennon and Co."

The Standard Account Co., of Elmira, N. Y., has engaged the services of Geo. W. Allen of this place as state manager to introduce their Standard Implying Account System of keeping books which is a rapid, simple, accurate, money saving and money making method. It is a radical change from the old method of keeping books. It is the finest system of keeping credit accounts ever invented. Once writing the items does all the book work, posts the ledger and gives the customer an itemized statement of his account without any liability of error, which means a great saving of money and time. George will hire general agents at a liberal salary who will in turn hire salesmen. Every retail merchant should adopt this system. There are already hundreds of these systems in use and are giving entire satisfaction. We wish George success in his new enterprise.
